

## SOFTWARE UPGRADE FOR YOUR LUMINAIRE INNOV-ÍS XP1

The tools you need to help inspire and innovate your projects

### End Point Sewing Function

Utilizing the built-in camerallike feature in the InnovEye Plus Technology, you can now stop your stitch in the perfect place by just placing the Snowball End Point Sticker on your project.

## Built-In Hexagon Shapes for Auto-Split Sash

Five hexagon shapes that give you more options for your embroidery/quilting projects!

## Two-Color Quilting Sash Designs

Expand your creative output by selecting from five two-color quilting sash designs – perfect for eye catching, colorful borders.

## My Design Snap Mobile App For Image Transfer

Transfer images wirelessly with My Design Snap mobile app. Select a picture of line art or an illustration from your iOS or Android™ mobile device and send it directly to the Luminaire 2 through your wireless network. Personalization and customization are now available in seconds.
